

***GENETIC TESTING UPDATE***

Date: July 7, 2008

To: All Clients

Re: Required Information for Genetic Testing

The EMH Reference Lab has updated the 'Genetic Information Form' test order attachment. Information no longer required has been deleted, while other information has been added.

Please discard all previous versions of this form, and begin using the revised version. To order additional copies of the revised Genetic Information Form, call Client Services at 866-941-4542.

For LabValet users, the 'ask at order entry' screen has been updated for applicable test orders.

**Required genetic information must be supplied** by the caregiver in order for the laboratory to calculate and interpret test results for QUAD and Cystic Fibrosis Screens, Alpha-Fetoprotein testing, Chromosome Studies, and Products of Conception. Please submit the required genetic information with the test order when sending specimens for these genetic tests.

If you have questions regarding this notice, please call Client Services at 866-941-4542.
