

MYCOPLASMA PNEUMONIAE ANTIBODIES

Date: January 30, 2008

Subject: Method Change

The methodology has changed for the Mycoplasma pneumoniae IgG and IgM Antibodies test, currently sent to Mayo Medical Laboratories. Mayo has made this change to allow for improved automation and turn around times for this test.

The specimen requirement has not changed (1 SST, 1 ml. serum. Refrigerate). Please update the method, reference values and ordering code in your Client Users Manual.

Test Name	Method	Reference Values	Order Code	CPT
Mycoplasma pneumoniae Antibodies, IgG and IgM	Enzyme Immunoassay (EIA)	≤0.90 (negative) 0.91-1.09 (equivocal) ≥1.10 (positive)	MYCO1	86738 x 2
